

## **Flowery Branch Student Charged With Disrupting School**

January 29, 2013

On Monday January 28th the Hall County Sheriff's Office responded to Flowery Branch High School on Spout Springs Road in regards to some suspicious comments made about the school on an Internet social media site. The comments caused a disruption at the school resulting in its normal operation. During the investigation it was determined a student had written on the social media site, known as Instagram, of a shooting that was to occur at the school. It did not mention a specific date, time or location the incident was to occur. Several Flowery Branch High School students saw the comments making them known to their parents Monday morning. The results caused a large number of parents picking up their children from school Monday morning shortly after school began. Hall County Investigators along with the Georgia Bureau of Investigation was able to identify the person responsible for making those statements. Investigators arrested 18 year old Tiffani Torres of Flowery Branch on Tuesday, January 29, 2013. She is charged with one count of Disruption of a Public School. Torres was booked into the Hall County Jail where she remains under a \$1000 bond.
