Applicant Signature:

Owner or Representative Date

Approved for construction: Permit valid for approved location only, if location changes contact Hall County Environmental Health Department for review/approval. Permit valid for 12 months from issue date.

Health Department Representative Date

Final location approval: Final as-built location inspection required. Please call (770)531-3973 to schedule inspection. All wells require a protective slab, 4 inches thick, extending 2 feet out in all directions from casing. Slope this slab away from casing. See regulations and information sheet attached for additional requirements
