TERMS AND CONDITIONS

Permit granted to applicant to make utility facility installation in accordance with the plans submitted to the Hall County Engineer and the Resolution adopted by the Board of Commissioners of Hall County on the 25th day of June, 1984, and recorded in Minute Book U, page 278, Hall County Board of Commissioners Minutes. Said Resolution is made a part hereof by reference thereto. The plans submitted to the County Engineer by the applicant are on file in the office of the County Engineer. Said plans are hereinafter referred to as "Plans".

Said facility installation shall also be in accordance with all rules, regulations, and guidelines of the Department of Transportation of the State of Georgia, as amended from time to time.

This permit authorizes only that installation specifically shown in the Plans. No additional installation other than that shown in said Plans is authorized hereby.

Installation made pursuant to this permit shall be made in strict compliance with the plans; provided, exceptions may be granted in writing by the County Engineer.

It is expressly stipulated that this permit is a license for permissive use only and the placing of facilities upon public property pursuant to this permit shall not operate to create or vest any property right in the holder. Whenever necessary for the construction, repair, improvement, maintenance, safe and effective operation, alteration or relocation of all or any portion of the road, as determined by the County, any or all of said facilities and appurtenances authorized hereunder shall be immediately removed from the right-of-way, or reset or relocated thereon, are required by the County Engineer, and at the sole expense of the applicant unless reimbursement is authorized by separate agreement. Should the applicant fail to remove or relocate its facilities, upon due notice from the County, applicant shall be liable for any extraordinary costs or damages incurred by the County as a result thereof.

Applicant agrees to indemnify and hold harmless the County and all officers, employees or agents of the County against any and all claims, damages, demands, actions, causes of action, costs and expenses of whatsoever nature, which may result from any injury to or the death of any persons or from the loss of, or damage to, property of any kind or nature, when such injury, death, loss, or damage arises out of the construction, operation, maintenance, repair, removal or relocation of the facilities covered by this permit.

The County, its engineers, officers or employees shall not be held responsible or liable for injury or damage that may occur to facilities covered by this permit, or to any connection or connections thereto, by reason of road maintenance and construction activities or road contractor or applicant's operations. The County's contractor shall not be held liable for any damage that may occur to utility facilities if the applicant has been notified of a construction conflict and given reasonable time to mark or relocate its facilities and has failed to do so.

During the initial installation or construction of facilities authorized by this permit, or during any future repair, removal or relocation thereof or any miscellaneous operations, the applicant shall, at all times, maintain flagmen, signs, lights, flares, barricades, and other safety devices as may be necessary to properly protect traffic upon the road and to warn and safeguard the public against injury or damage.

It is the applicant's responsibility to verify the limits of public right-of-way for location of the utility facilities authorized hereby.

No inherent or retained right or privilege of any abutting property owner is affected by this permit nor is the County responsible for any claim which may develop between the applicant and any property owner concerning use of the right-of-way. Applicant is responsible for maintaining reasonable access to private driveways during installation of its facilities and for restoration of driveways to the owner's satisfaction.

Approval of this permit does not constitute approval of design or construction details for the proposed facilities. Applicant is responsible for compliance with all applicable governmental codes and regulations.

The provisions of this permit are regulatory and not contractual. No interest or right of an applicant granted by this permit may be transferred to another except by written consent of the County.

Applicant is responsible for placing the right-of-way and/or roadway back to its proper state, if not, the security deposit check placed on utility permit project will be deposited to restore the work area to its original condition.
